Phill,

As you recall, Ryan Jackson recently requested a one-pager on [REDACTED] following a call he received from the company (attached). At this time we have not heard back from Ryan.

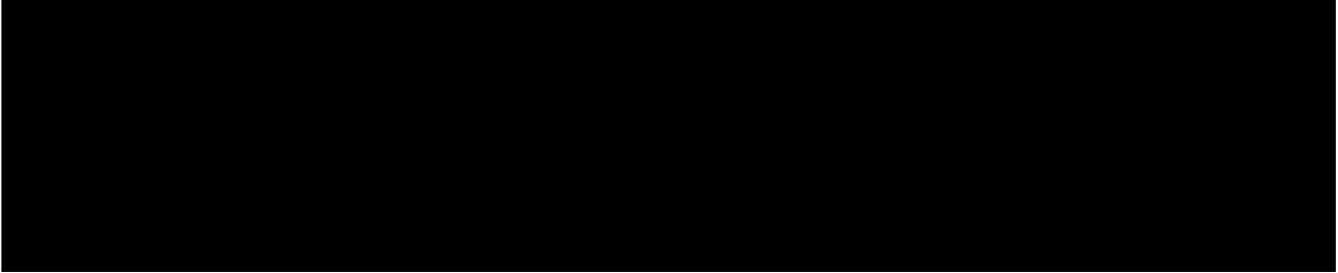

[REDACTED]

I'm also including links to the three recent O&G settlements in Colorado as background for Peter. As you are aware, these cases involve O&M issues as well as engineering design problems. [REDACTED]

[REDACTED]

Let me know if you need any additional information.
